

Conventional Call System

Tried, trusted and respected by users and installers alike, our conventional Call System is ideal for use in all types of private, commercial, residential and public sector buildings. Incorporating a wide range of indicator panels and an extensive array of system components, it is without doubt one of the most versatile and reliable conventional call systems on the market.

Depending on the type of calling devices used, the system can be set up to operate as a standard system - on which standard (constant tone) calls are generated, or an emergency system - on which standard (constant tone) and emergency (intermittent tone) calls are generated.

Features

- Hundreds of applications - suitable for use in hotels, leisure centres, nursing homes, shops, offices, etc
- Hard wired for total reliability - 4 to 6 core security cable is ideal for most installations
- Wide range of indicator panels covering 1 to 90 zones
- Extensive range of ancillaries including ceiling pulls, wall-mounting call points, monitoring points & water resistant alert points, stainless steel call points, overdoor lights, remote sounders, relays and call latch modules are available
- 12V d.c. system - simple to install, easy to operate and highly reliable
- Most wall-mounting plastic components fit standard 25mm single or double gang back boxes. Ceiling pulls and water resistant alert points are surface mountable
- Attractive compact design blends perfectly into any sort of decor
- All power supplies capable of 12V sealed lead acid battery charging
- Two levels of call - standard (constant tone) and emergency (intermittent tone)
- Optional button or magnetic key reset facilities (dependent on items purchased)
- No limit to system size - components can be mixed and matched to meet the layout and call communication requirements of virtually any building

Emergency Indicator Panels Ordering Codes & Information

Cat No	Description
ONC-004	4 Zone Call Controller c/w Mute/Reset Button requires 12 Volt Power Supply Unit
ONC-005	12 Volt 250mA Power Supply Unit, Powers up to 2 x four zone call controllers

Standard Indicator Panels Ordering Codes & Information

Cat No	Description
ONC-006	10 Zone Standard Master Panel c/w 12 Volt Power Supply Unit & Reset Button
ONC-007	10 Zone Standard Repeater Panel
ONC-008	20 Zone Standard Master Panel c/w 12 Volt Power Supply Unit & Reset Button
ONC-009	20 Zone Standard Repeater Panel
ONC-010	30 Zone Standard Master Panel c/w 12 Volt Power Supply Unit & Reset Button
ONC-011	30 Zone Standard Repeater Panel

Overdoor Lights & Sounders Ordering Codes & Information

Cat No	Description
ONC-012	Overdoor Light
ONC-013	Overdoor Light & Sounder

Standard Call Points Ordering Codes & Information

Cat No	Description
ONC-014	Ceiling Pull Unit, No On-Board Reset, No Remote Socket
ONC-015	Standard Call Point, Button Reset, with Remote Socket

Reset Points Ordering Codes & Information

Cat No	Description
ONC-016	Button Reset Point
ONC-017	Button Reset Point c/w Sounder and Braille Label

Ancillary Calling Devices Ordering Codes & Information

Cat No	Description
ONC-018	1.8m (6ft) Tail Call Lead
ONC-019	4.2m (14ft) Tail Call Lead
