

Addressable Call System

Our addressable call system is one of the most innovative available in the UK. The way the system operates can be tailored to suit a care facility's specific requirements. For example, different day, night and call divert arrangements can be easily accommodated to meet the exact operational needs and precise layout of any building. This flexibility, coupled with many other advanced features such as multiple call levels, free built-in data logging, simple system reprogramming and full monitoring of all network devices, makes the system the obvious choice for nursing homes, hospitals, health centres and many other private and public sector establishments.

The easy-to-read backlit displays show the precise location of all relevant incoming calls and indicate their presence via a gentle unobtrusive alarm tone. Should you visit a room only to find additional assistance is required, simply reach across to the nearest call point to make a 'help required' or 'emergency' call. The system will prioritise your call, show it on all relevant displays and indicate its higher priority with a more urgent alarm tone easily recognisable by fellow staff.

Despite its many features, it is one of the easiest to use call systems ever manufactured. Calls can be made from a variety of devices including tail call leads, ceiling pulls and pressure pads, each designed to suit different levels of patient dexterity. Once triggered, calls are reset at the room from which they were made via a button or magnetic reset key. A confidence light on the bedhead reassures patients that calls have been registered, and for those prone to wander, door monitoring points and portable movement detectors can provide added protection.

Network Controllers, Displays & Installation Aids Ordering Codes & Information

Cat No	Description
ONC-020	Controller
ONC-021	Upload/Download Software c/w SAF7070000 Lead to suit Windows 2000/XP
ONC-022	Corridor Display with Controls
ONC-023	Corridor Display without Controls
ONC-037	Surveyor Data Management Software c/w Wall Socket & Lead
ONC-038	Network Splitter
FPA-406	Flush Mounting Bezel to suit ONC-020 Controller

Overdoor Lights & Sounders Ordering Codes & Information

Cat No	Description
ONC-002	Overdoor Light c/w Sounder
ONC-024	Overdoor Light

Call Points Ordering Codes & Information

Cat No	Description
ONC-003	Call Point with Remote Sockets, Button Reset, Standard Label
ONC-025	Call Point with Remote Sockets, Magnetic Reset
ONC-026	Slave Call Point with Remote Sockets
ONC-027	Call Point without Remote Sockets, Button Reset
ONC-028	Call Point without Remote Sockets, Magnetic Reset

Ceiling Pulls Ordering Code & Information

Cat No	Description
ONC-001	Ceiling Pull Unit

Monitoring Points Ordering Code & Information

Cat No	Description
ONC-029	Monitoring Point, Button Reset

Ceiling Receivers & Mk2 (868MHz) Radio Receivers Ordering Codes & Information

Cat No	Description
ONC-030	Master Infrared Ceiling Receiver
ONC-031	Slave Infrared Ceiling Receiver
ONC-032	Mk2 Radio Receiver, Compatible with ONC-033 Transmitter Only

Rechargeable Dual-Action Infrared/Radio (868MHz) Transmitters Ordering Codes & Information

Cat No	Description
ONC-033	Mk2 Infrared/Radio Transmitter, Push for Attack/Pull for Attack
ONC-034	Single Way Charging Unit to suit ONC-033 Transmitter
ONC-035	Ten Way Charging Unit to suit ONC-033 Transmitter
